\*\* Manually operated gates to be secured by a recommended padlock and protector/or padbar to European Standard 12320 grades 4, 5, or 6\*\* The gate preferably to be of single leaf design.

\*\*\* List of recommended locks can be supplied

\*\*\*\* Planning authorities can refuse permission for security lighting, and normally impose conditions if they give approval. There are several types of fencing from proprietary to ad-hoc. The effective stopping value of the fence will influence the level of award. CCTV systems may have to be registered with Information Commissioners'

**Account will always be taken of the locality of the site and the level of crime in the area. Caravan theft is a predominantly urban crime where more physical security measures will be recommended.**
