Caravan Storage Manager

CaSSOA is pleased be working in partnership with [Station Software](#), provider of [Caravan Storage Manager](#) IT software.

Caravan Storage Manager is software developed to help you manage all aspects of your Caravan Storage site. The software records all details of customers, caravans, insurance details, invoices, reminders and many other details to help you run your site as efficiently as possible.

This software can manage all aspects of Caravan Storage sites, and can also integrate with internet enabled CCTV and Paxton Access Net2 Access Control Systems.

The main features of Caravan Storage Manager include:

- Geographical representation of plots, with up to 6 storage areas supported by drag & drop site designer

- Up to 18 charging rates (annual, monthly, etc)

- Customer, Storage, Insurance and Payment details stored for each plot.

- Detailed History for each Customer, attach documents and images.

- Caravan CRiS number check

- Print Initial Contract using stored details. Includes your own logo and CaSSOA Award Status (if applicable)

- View & export invoices / contracts

- Integration with Paxton Net2 Access Control Systems. Shows live movements, alarms and status. The system also allows automatic updating of the Paxton Net2 Software without entering data twice.

- Backup the data to a local drive and also to the Cloud for added security.

- Print Terms and Conditions

- Automatically calculates Payments and proportional payments.

- Remote Support using Teamviewer Software.

- Search for Customers using Name, Vehicle Registration, Land Line or Mobile number.

- At a glance - see who hasn't paid or whose Insurance has expired.

Station Software was set up more than 30 years ago by Mike Whitlock, and now has a wealth of experience in all aspects of IT Support, designing and creating bespoke solutions for a wide variety of clients, including a number of CaSSOA members.

Station Software specialises in custom designed or 'Bespoke' programs and database design for small businesses. When designing a program, they will look at how your business works, listen to your needs and then design a system that is specific to you.
