Physical Security Products & Services

SECOM provide made to measure physical security products to protect your premises and assets, all designed to meet your individual needs.

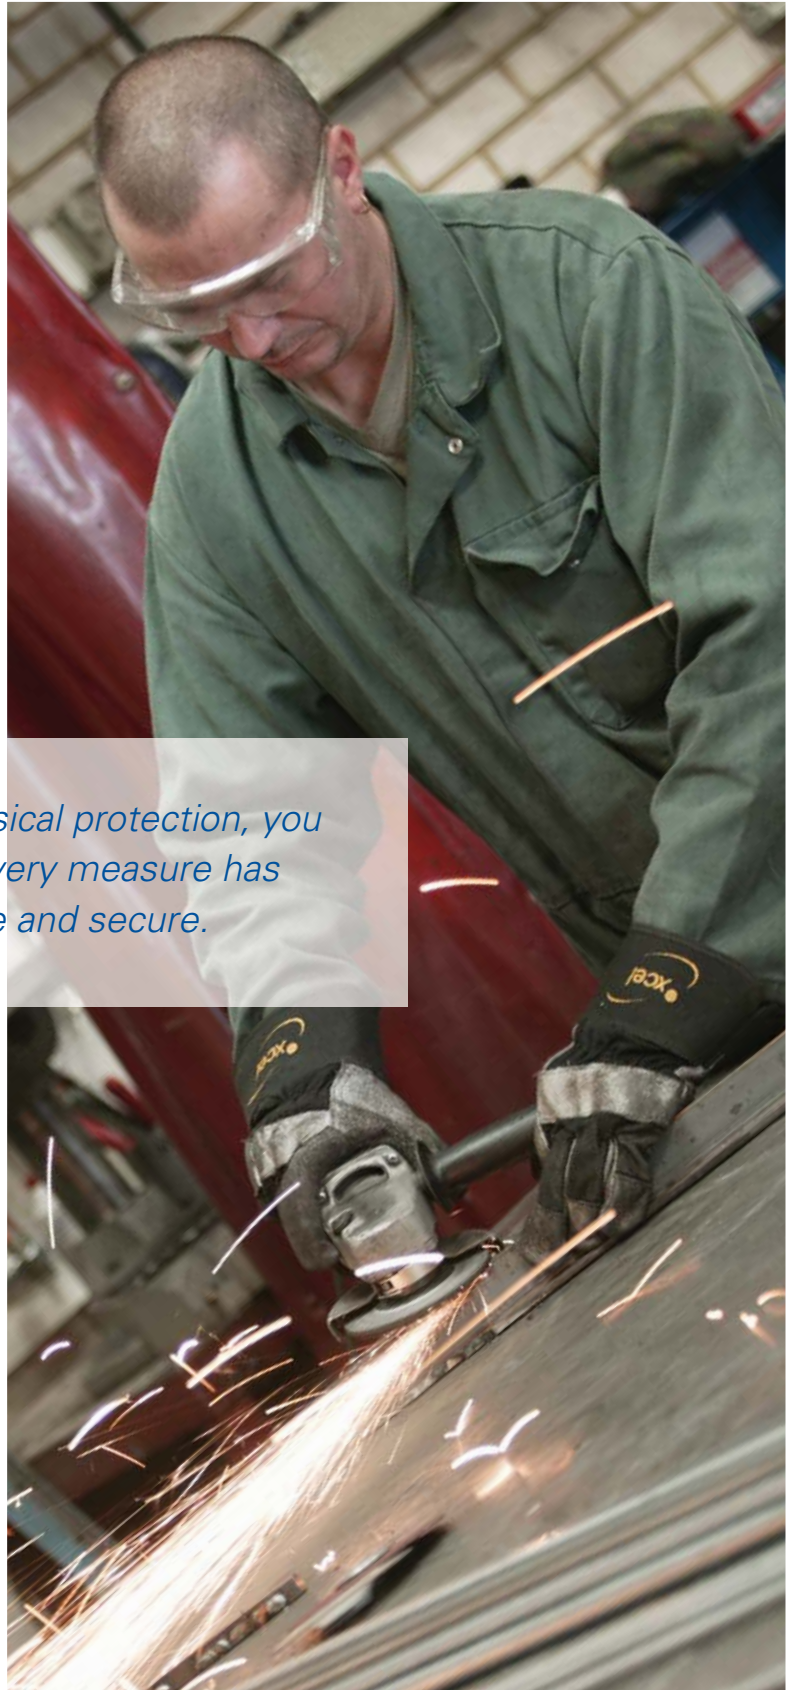

At SECOM we will be able to advise you on the level of safety and security that you need without creating a "fortress environment" and unlike other security companies we have our own in-house physical division.

Whilst electronic security offers a highly efficient method of security and peace of mind, physical security can be both a visual deterrent and effective means of keeping an intruder out.

With both electronic security and physical protection, you can feel safe in the knowledge that every measure has been made to keep your property safe and secure.

Residential Physical Security

SECOM understand that physical security for the home needs to be robust whilst easy on the eye.

We manufacture many different physical security products that both act as a visual deterrent to a potential burglar whilst blend in with the décor of the home.

Our products can be matched to any colour scheme as required whilst our door and window grilles can be made either fixed or removable for ease of cleaning.

Typical Residential Physical Security products

- Collapsible Gates
- Decorative Grilles
square, round or scroll
- Continental Roller Shutters
Manual & Motorised
- Door Locks & Hinge Bolts
- Window Locks

All of our physical security equipment comes with a 12-month warranty and an optional service and maintenance package.

Custom-made, high quality security products tailored to your home's security needs

Residential Security Products

Continental Aluminium Roller Shutters

Motorised or manually operated, our roller shutters offer both visibility and security. Our galvanised steel range of roller shutters are manufactured from 75mm traditional curved lath and can be perforated to allow visibility.

Decorative Collapsible Gates

SECOM's collapsible gates provide property with a robust physical barrier whilst being easy on the eye and blend in with the décor of the home.

In case of fire, they can be easily opened to provide a quick escape.

Our gates are custom-made to suit both doors and windows and are secured by high security gate locks.

Residential Security Products

Decorative External Grilles

Our decorative grilles come in a variety of styles and colours and can be used for both doors and windows to provide extra security to your home.

From simple to elaborate and ornate, all our grilles are made to measure from high quality steel and are appealing to the eye whilst offer maximum security protection and peace of mind.

Security Doors and Panic Rooms

We offer a vast range of custom made doors specific to your needs incorporating safety, soundproofing, thermal insulation and fire resistance.

Our bespoke front doors for Grade I and II listed buildings pay attention to the smallest detail so you don't have to compromise on style. For added peace of mind we can provide your property with a panic room to give you a safe shelter.

We utilise state of the art 3D design and Auto CAD technology to produce your drawings designed and made to exact standards.

Residential Security Products

Entrance Gates and Automated Gates

Our broad range of gates provide a great visual deterrent to potential burglars whilst maintaining the aesthetic look to the front of your property.

All our gates can be made to measure to provide a host of security benefits as either manual swing or fully automated to suit your requirements.

Gate Safety Aware

As a quality installer we ensure that all our automated gates comply with the Health and Safety Executive standards. When installing and maintaining automated gates our highly trained engineers will carry out a full risk assessment to identify potential safety risks.

Commercial Security Products

Security for your business is crucial to protect your premises and stock from vandalism, robbery, ram-raids and even gun violence.

Though many of our residential physical products can be used in commercial applications we also have a wide variety of products that are more suited to commercial security.

All our products can be fitted either internally or externally which is an important factor to consider with regards to the specifications of the job.

All of our physical security equipment comes with a 12-month warranty and an optional service and maintenance package.

Typical Commercial Physical Security products

- 3" Steel Lath Roller Shutters Manual & Motorised
- Continental Roller Shutters Manual & Motorised
- External & Internal Portcullis
- Roller Grilles
- Ventilation Grilles & Bar Grilles
- Collapsible Gates & Grilles
- Mesh Panels & Cages
- Steel Doors, Locks & Hinge Bolts
- Telescopic Ram Posts
- Perimeter Fencing, Automated Gates and Rising Arm Barriers

Commercial Security Products

Internal Security Grilles

Our collapsible grilles and portcullis grilles are ideal to protect goods and premises. They combine the strength of steel with an “open” look and feel.

Portcullis roller grille

Collapsible grille

Collapsible Gates

Our collapsible gates offer an industrial-strength physical barrier that is very easy on the eye - unobtrusively blending in with the décor. Concealed when not in use, they offer a quick escape in case of fire.

Commercial Security Products

External Roller Shutters

Motorised or manually operated, our roller shutters offer both visibility and security. Our galvanised steel range of roller shutters are manufactured from 75mm traditional curved lath and can be perforated to allow visibility.

Motorised roller shutter

Continental roller shutter

Hinged bar gates

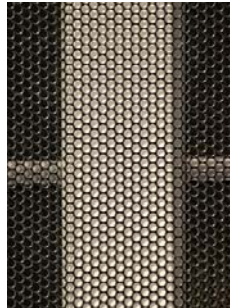

SECOM's hinged bar gates provide a secure and robust means of physical protection to any doorway.

Commercial Security Products

External Mesh Panels

We can provide and install a vast range of mesh panels that can be tailor made to meet your requirements.

Steel Doors

SECOM supply a range of security doors constructed from two skins of 1.2mm thick galvanised steel, to keep your premises lock tight and secure.

Commercial Security products

Security Screens

Our bespoke bullet resistant and anti bandit screens are designed to provide a physical barrier and a high level of protection to meet a specified level of attack.

Glass for the screens is ordered cut to size ready to be fitted into our framework made in either steel or aluminium and powder coated to any colour.

Other products in this range include cash transfer units, patrol windows and security partitioning.

Fire Roller Shutters

Our vertical fire shutter can be made to measure and consists of a steel slatted curtain and galvanised steel box assembly and guide rails that can be powder coated to your choice.

Acting as a means of physical security during normal use and a fire safety shutter in the event of a fire, it is available in safety ratings of up to 4 hours and conforms to UK and European standards.

In the event of a power failure the fire shutter will close using the battery backup feature.

Physical Security Services & Enquiries

We can supply and install a variety of additional products to help meet your security requirements

- Razor spikes
- Rotor Spikes
- Anti Climb Spikes
- Anti Climb Paint
- Hoop Barriers
- Anti Vandal Shield safes
- Automated ram raid posts

Product Installations

At SECOM we have our own dedicated experienced installation team. On occasions, for certain installations we also use sub contractors. When this is the case we only use tried and tested, reliable people.

We are also able to supply certified products approved to meet particular standards, for instance 'Secure By Design' or 'LPCB' (Loss Prevention Certification Board). We can supply these certified products made to the necessary standards from our leading, trusted suppliers.

It is often essential to carry out a thorough survey before confirming a price for a quote. We have skilled surveyors who have many years' experience in the industry if a site visit is required for specify a job.

Get in touch

We would be happy to supply detailed information and images upon request for many of our products and services which will help you choose from our broad range of bespoke designs.
