Total Control

SECOM Smart Security in the home comes with an app, giving you 24-hour access and control of your home – arm and disarm your system from anywhere, check your system’s status, and receive notifications of activity at your property. You can also view camera footage, with video clips saved securely to the cloud.

Smart Add-ons

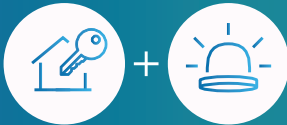

Add smart devices, cameras and safety sensors to your package to customise your system and meet the specific requirements of your home.

Dedicated Connection

Our system operates using a dedicated mobile connection, so your property remains secure even if the phone line is cut, the power is out, or the Internet is down.

We offer a range of system response options. Contact us to find out which level of coverage is right for you.

			
Keyholder Only	Keyholder + Police Response	Key Response Service + Police Response	Guard Response
