

Dear Member,

If you've not already confirmed your attendance at the Annual Meeting, get in there quickly as spaces are limited. It's an in-person event this year, taking place in Nottingham on 21 November. Expect CaSSOA updates as well as business rates and fire safety presentations, and SECOM survey progress.

We're exhibiting at the Farm Innovation Show again this year on 15/16 November at the NEC. It's free to attend and there's an array of diversification ideas as well as guest speakers and seminars. Come and say hi!

Make sure to check your junk folder in case our monthly e-shots are getting lost, but as always we've included a round up of useful information in this newsletter.

As always, please get in touch with any questions, comments or feedback.

Kind Regards,
Becci Bailey, CaSSOA Manager

Regular E-shot Roundup

Every month, we send out a short email with relevant information and updates. If you've missed these, here's a roundup of the most recent topics.

Health & Safety Posters

If you employ anyone, the law says you must: display an approved version of the poster, or provide each worker with a copy of the equivalent leaflet

You must display the poster where your workers can easily read it and you can't print a copy yourself.

Purchase from the [HSE website here](#).

Seasonal Workers

With many seasonal jobs being filled at this time of year, it is important that employers protect the health and safety of gig economy, agency and temporary workers.

Workers are as likely to have an accident in the first 6 months at a workplace as during the whole of the rest of their working life.

[The HSE website has guidance](#) to help users and suppliers of agency and temporary workers understand their health and safety responsibilities.
